

City of Ketchikan - Harbors

Ketchikan, Alaska
(907) 228-5632
VHF 16/73

Welcome to the City of Ketchikan Port & Harbors

The City of Ketchikan operates five public boat harbors in the Ketchikan area. Harbor regulations and user fees are established by the Ketchikan Municipal Code Title 14. We ask that you read the following information and familiarize yourself with the procedures and the services available in our harbors.

All vessels using the harbors must register with the Harbor-master's office at Bar Harbor North, 2933 Tongass Ave. Registration is also available on the City of Ketchikan Harbor website at www.ktn-ak.us. When registering, you will need to provide the official vessel numbers or name of your boat if it is visually displayed. All vessels mooring in the harbors must pay a user fee based on the overall length of the vessel. If an additional vessel is in the water, i.e. auxiliary skiff or seine skiff, it will also be charged. **Check out time is noon.** Boats remaining in the harbor after noon will be charged for another day of moorage. If you plan to moor for less than two hours, you may use the loading zones: loading zones are painted white and located by the ramps. There is no charge for use of the loading zones for a maximum of two hours. **Payments can be made by credit card, cash or check (U.S. only).**

There is transient moorage available in all the harbors. Open moorage permits must be purchased in advance; they are non-transferable and non-refundable. We do not automatically bill out for permits. If you do not purchase a 30-day permit in advance, you will accrue charges at the daily rate, which is the most expensive rate. There is a substantial savings when you purchase a 30-day permit. Please note that open moorage permits for harbors do not apply at the downtown "port" berths. Separate dockage fees are charged for using port facilities.

Electricity is not included in the moorage fee. **Most electric meters, whether locked or not, are privately owned by the stallholders. Do not plug into power without permission from a Harbormaster.** The Harbor Department has power available at Casey Moran Float and a few other designated open moorage sites marked with a red HP sticker. There is a separate charge for electricity. When paying for moorage, please let us know if you have used electricity.

Potable water is available on all floats. Containers for used oil are provided at the top of most ramps. There are pump-out stations at Casey Moran (corner of Float 5), Bar Harbor North (between Floats 10 & 11) Bar Harbor South (between Floats 7 & 8) and Thomas Basin (corner of Float 1 & 5). Restrooms and showers are available at the Harbormaster's Office at Bar Harbor North. A laundry facility is available within walking distance of Bar Harbor. There are two fuel docks in Ketchikan. One is located at the south end of town near the USCG Base and one is at the north end of town near the shipyard. Tidal grids, cranes, and the drive-down ramp are by **reservation only (907-228-5632) and there are usage fees for each service.** The gear float is located at the north end of Bar Harbor North and is available at no charge for working on nets. Mooring or gear storage is not allowed at the net float. When the harbors are crowded, it is permissible to moor alongside another vessel in an open moorage area. We ask that you use adequate fenders & mooring lines when rafting.

Other Harbor Services and Fees

(Effective April 1, 2025)
