**PERSONS TO BE HEARD:**

**Mr. David Lethin – Bering Sea Crab Fishermen's Tour**

Mr. David Lethin, owner of the Bering Sea Crab Fishermen's Tour, addressed the Board regarding:

**Electrical Billing Concerns**

Reported a significant increase in electrical charges from approximately \$250-\$275 per month to approximately \$1,600 per month.

Expressed concern that electrical fees are based on vessel length rather than actual electrical consumption.

Stated that moorage fees are already based on vessel length and questioned the fairness of applying the same basis to electrical charges.

Noted that no direct notification was received regarding the billing change.

**Safety Concerns on Tender Float 3**

Requested consideration of installing a safety railing or barrier on the outboard side of Tender Float 3.

Reported multiple incidents over the years involving visitors falling into the water.

Expressed concern regarding accessibility and safety for elderly and disabled visitors.

**Sewage Pump-Out Concerns**

Requested repair and reinstatement of use of the smaller sewage pump-out station.

Reported approximately \$2,000 per month in pump-out costs using the larger facility.

Stated that his vessel had historically used the smaller pump-out station without issue.

**Staff responded that:**

The smaller pump-out station was not designed for vessels of the size and passenger capacity of the Bering Sea Crab Fishermen's Tour vessel.  
Larger vessels are directed to use the larger pump-out facilities.
